JAGGAMPUDI SURESH

Tadepalligudem, Andhra Pradesh, India | +91 9398642434 | sureshjaggampudi@gmail.com | GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Computer Science undergraduate with a strong foundation in Data Structures and Algorithms, programming, and web development. AWS Certified Cloud Practitioner and Microsoft Certified: Azure AI Apps and Agents Developer Associate, with hands-on experience building machine learning and web-based applications. Consistent competitive programmer on LeetCode and GeeksforGeeks, seeking to apply strong problem-solving and software development skills to real-world engineering challenges.

EDUCATION

Sri Vasavi Engineering College, Tadepalligudem 2024 – 2028

Bachelor of Technology in Computer Science and Engineering; CGPA: 9.34 Expected Jul 2028

Relevant Coursework: Data Structures and Algorithms (DSA), Database Management System (DBMS), Object Oriented Programming (OOP)

VSN Junior College, Andhra Pradesh 2022 – 2024

Intermediate; Percentage: 96.1%

SKILLS

- **Programming Languages:** Java, C, Python
- **Web Technologies:** HTML5, CSS3, JavaScript
- **Database:** SQL, MongoDB
- **Version Control:** Git, GitHub
- **DSA:** Arrays, Strings, Searching and Sorting Techniques, Maps, Sets, ArrayList, LinkedList, Priority Queues
- **Cloud:** AWS (Cloud Practitioner Certified)

PROJECTS

Research Publication Management Portal | Live Demo

MongoDB, Express.js, React.js, Node.js (MERN Stack)

- Building a full-stack web portal, inspired by SIH 2025's Authenticity Validator for Academia, to digitize and streamline faculty research publication tracking, replacing manual Excel-based records.
- Designing role-based access with JWT authentication for Faculty (add/update publications, view history) and Admin (verify, edit, delete publications, generate department-wise reports).
- Developing REST APIs with Node.js and Express.js, and modeling MongoDB Atlas collections for Users, Publications, and Departments with full CRUD support.
- Building the React frontend with reusable components, hooks (useState, useEffect), forms, and React Router, and testing APIs with Postman before integration.

Student Management System

Java, JDBC, MySQL, HTML, CSS, JavaScript

- Developed a responsive web-based Student Management System to manage student records with full CRUD (Create, Read, Update, Delete) operations.
- Integrated JDBC (Java Database Connectivity) with PreparedStatements to connect the application backend to a MySQL database for persistent, secure storage and retrieval of student records.
- Designed an interactive interface with form validation for accurate data entry; supports add, update, delete, and search features.
- Handled database connection management and exception handling to ensure reliable data operations and smooth user experience.

CERTIFICATIONS

- Microsoft Certified: Azure AI Apps and Agents Developer Associate (Issued: Aug 2026) — Validated expertise in building AI apps and agents on Microsoft Azure.
- AWS Certified Cloud Practitioner (Issued: Feb 2026) — Industry-recognized cloud certification.
- NPTEL Java Certification — Elite + Silver (86%) .

ACHIEVEMENTS & ACTIVITIES

- Solved 130+ DSA problems on LeetCode with consistent daily practice.
- Maintained CGPA 9.34/10 till now.
- Solved 200+ DSA problems on GeeksforGeeks (GFG) with consistent daily practice.
- Winner In HACKVERSE Hackthon (8-hr): Built a MERN Stack Campus Resource Booking System.
